Water only needs one gap to find its way into a Llanishen home, and a slipped tile is often *roofers cardiff* all it takes. Driving rain, strong winds and the regular freeze-thaw cycles of a South Wales winter put every roof in this part of the city under steady pressure, and small faults rarely stay small for long. Redland Roofing Cardiff is an independent, family-run roofing company from South Wales that has served Cardiff and South East Wales for over 30 years, carrying out roof repairs and full re-roofing for homes in Llanishen and right across the north west of Cardiff. The team replaces slipped, broken and missing tiles, renews ridge tiles and dry verge, repairs lead work and lead joints, and fixes cracked flashing around chimneys and skylights. Blocked gutters and worn valleys are also common causes of leaks, and fascias and guttering can be repaired or renewed at the same time. Where a roof has reached the end of its life, a full replacement of a tiled or slate roof, small or large, is the better long-term option. Concrete and clay tiles generally last 40 to 60 years with maintenance, so many roofs eventually reach a point where patching no longer makes sense. Deciding between a repair and a re-roof should come down to honest advice, and that is how Redland Roofing Cardiff works. Your Llanishen roof is assessed, the problem is explained clearly with photos, and you receive a free, no-obligation written quote with transparent pricing. The team will not recommend a replacement if a repair will do. Where re-roofing is needed, a standard terrace or semi typically takes two to four days, weather permitting, while larger detached or complex roofs take around four to seven days. The roof is left watertight at the end of each working day. Neighbouring Thornhill, Rhiwbina and Whitchurch are covered too.
