Unlike traditional land-based casinos where pit bosses actively look for card counters, live gambling establishments carry out particular countermeasures to reduce the effects of advantage play. However, because live games utilize physical shoes and physical cards, mathematics still applies.

Difficulties of Live Dealer Card Counting

Due to the fact that getting rid of those low cards from the deck discreetly moves the probability of drawing a low card versus a high card, making a hit statistically remarkable.

Handling Tablemates (The "Co-op" Fallacy)

In live dealership blackjack, you share a table with other players. Novices typically get frustrated when a gamer makes a "incorrect" move (e.g., hitting a 12 versus a dealership 2) and "takes the dealer's bust card."
