### What is the Aviator Casino Game?

Developed by Spribe, Aviator is a social multiplayer game belonging to the "crash game" genre. Unlike standard slots that rely entirely on fixed paylines, or table video games with complicated rulebooks, Aviator is constructed on a dynamic, real-time multiplier curve.

The premise is deceptively simple:

1. An airplane appears on the screen.
2. As the airplane climbs, a multiplier coefficient boosts (starting at 1.00 x).
3. Players position one or 2 bets before the round begins.
4. The objective is to cash out before the aircraft randomly flies away.
5. If a gamer cashes out in time, they win their stake increased by the existing value. If the airplane flies away ("crashes") before they squander, the bet is lost.

### Secret Features of Aviator

What sets Aviator apart from standard casino offerings is its interactive and social design. Secret functions consist of:

- **In-Game Chat:** Players can communicate with others in real-time, share winning strategies, praise fellow players, and construct a sense of neighborhood.
- **Live Statistics:** The user interface shows a live ticker of recent multipliers, enabling players to see historic data of past rounds.
- **Aviatrix Tournaments:** Regular competitions run along with the main game, providing players a chance to win additional rewards and complimentary bets based upon their gameplay.
- **Provably Fair Technology:** The game makes use of a cryptographic system called "Provably Fair" to guarantee 100% transparency. Gamers can independently verify the fairness of every single round.
