- **Biometric Security:** Test centers implement stringent security procedures, consisting of palm-vein scanning, digital signatures, and protected ID confirmation.
- **Direct Database Storage:** Scores are not printed on physical paper certificates that can be easily forged; rather, they are stored safely in the Pearson candidate portal, where institutions verify them digitally by means of a protected Score Report Code (SRC).

A quick internet search or scroll through social media platforms like Telegram, WhatsApp, and Facebook exposes many ads using "real PTE certificates without an examination," "PTE rating modification," or database hacking services.
