

What To Ask Before You Buy

Poor installation can undermine even a premium unit.

Before ordering, ask a few direct questions: 2. What kind of glass is used in any lite, sidelight, or transom?

They are the difference between buying a door that simply looks sturdier and one that actually protects the opening when hail starts slapping the siding and glass.

Installation timing matters as well.

For households weighing storm protection, comfort, [Windows of Celina 469-716-5345](tel:469-716-5345) and curb appeal, impact-rated doors are one of the more practical upgrades available.
