Understanding the Wheel Segments

The 54-segment wheel is divided into numbers and bonus game signs. Each number represents a payout multiplier (e.g., a bet on '1' pays 1:1, '2' pays 2:1, and so on), while the signs set off the bonus offer rounds.

Here is a breakdown of how the wheel is distributed:

- **Number 1:** 21 segments
- **Number 2:** 13 sectors
- **Number 5:** 7 segments
- **Number 10:** 4 sectors
- **Coin Flip:** 4 sections
- **Pachinko:** 2 segments
- **Money Hunt:** 2 sectors
- **Crazy Time:** 1 section

Since the perk rounds appear less regularly on the wheel, they are the most anticipated outcomes of the video game.

The true magic of Crazy Time happens when the wheel arrive at a perk segment. Players who have positioned a wager on that specific bonus are transferred from the primary game studio into a secondary augmented-reality or physical perk round.

1. Coin Flip

- **Frequency on Wheel:** 4 segments
- **How it works:** A basic red-and-blue coin is turned by a machine. Before the flip, a random multiplier is appointed to both the red and blue sides. Whichever side lands deal with up wins the multiplier for the gamer. If the multipliers are low, a "Rescue Flip" can sometimes be activated for another possibility at higher benefits.

2. Pachinko

- **Frequency on Wheel:** 2 segments
- **How it works:** Inspired by the standard Japanese arcade video game, gamers are revealed a massive Pachinko wall filled with pegs. The host drops a puck from the top, and it bounces down randomly till it lands in among the multiplier slots at the bottom. If the puck arrive on a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped once again.

3. Money Hunt

- **Frequency on Wheel:** 2 sectors
- **How it works:** An enormous screen shows 105 random multipliers hidden behind shooting gallery symbols (like stars, targets, and rabbits). Gamers utilize a virtual crosshair to intend and contend one symbol before the countdown timer ends. As soon as the timer ends, all symbols expose their concealed multipliers, and players receive the multiplier corresponding to their picked target.

4. Crazy Time

- **How it works:** This is the supreme bonus round. The host opens a red door to expose a colossal, surreal virtual world with an even larger wheel. Players need to select one of three flappers (Green, Blue, or Yellow). The wheel is spun, and whatever multiplier the chosen flapper points to is awarded. Much like Pachinko, landing on "DOUBLE" or "TRIPLE" increases all the worths on the wheel for a re-spin, causing potentially incredible payments.

Secret Features That Elevate the Gameplay

Crazy Time stands apart in the congested online gaming market due to several ingenious style options:
