The objective is simple yet agonizingly tense: money out your profits before the boat crashes (in this case, before the line snaps or the fish leaves). If you squander in time, you multiply your original stake. If the crash occurs before you hit the button, your stake is lost.

Unlike standard slots, *Big Bass Crash* offers an interactive, real-time experience where all gamers in the lobby share the same multiplier curve, fostering a shared sense of neighborhood, accomplishment, and collective heartbreak.

Because split seconds matter in crash games, human reaction time can sometimes be an enemy. *Big Bass Crash* consists of robust automation tools:

- **Auto-Cashout:** Players can set an established multiplier (e.g., 2.00 x or 5.00 x). As soon as the multiplier hits that number, the video game instantly cashes out the bet.
- **Auto-Play:** Players can set a particular number of consecutive rounds to play immediately at a set stake.
