Since numerous CS2 matches are played as best-of-threes, handicaps prevail. If a group is a heavy favorite, they may be given a -1.5 map handicap. This suggests they need to win the series 2-0 to cover the spread. Conversely, wagering on the underdog with a +1.5 handicap suggests they win the bet if they win even a single map in the series.

3. Total Maps Over/Under

This market focuses on the length of the series. In a best-of-three, the "Total Maps" is typically set at 2.5. Betting "Over" implies the gambler anticipates the series to go to 3 maps; betting "Under" implies a swift 2-0 sweep.
