# Ultimate Protection on the Go: The Complete Guide to Ghost Immobiliser Mobile Fitting

Lorry theft has actually evolved considerably over the last years. Gone are the days when thieves relied entirely on hotwiring ignition systems or breaking windows to take a car. Today's sophisticated crooks use digital relays, key cloners, and OBD (On-Board Diagnostics) hacking tools to bypass standard factory security in simple seconds--frequently without leaving a single sign of break-in.

For modern-day lorry owners, relying on standard factory immobilisers is no longer enough. Go into the **Ghost Immobiliser**, a revolutionary aftermarket security device developed *ghost immobiliser fitter* to stop state-of-the-art vehicle burglars in their tracks. Better yet, with the arrival of **mobile fitting services**, securing a car has never been easier.

## What is a Ghost Immobiliser?

Developed by Autowatch, the Ghost Immobiliser is the world's first aftermarket CAN bus immobiliser. Unlike conventional immobilisers that count on separate key fobs or transponders (which thieves can easily take, clone, or lose), the Ghost integrates directly into the lorry's existing Controller Area Network (CAN bus).

How does it work? The device prevents the automobile from starting unless a special, secret PIN code series is gone into. This code is inputted using existing buttons inside the automobile, such as those on the guiding wheel, center console, or door panels.

### Key Features of a Ghost Immobiliser:

- **No Key Fobs or Tags:** There are no extra products to bring around, indicating nothing can be intercepted or stolen.
- **Undetectable by Scanners:** Because it has no radio frequency (RF) signals, burglars can not discover or obstruct the gadget utilizing basic electronic diagnostic devices.
- **Under-the-Radar Installation:** The unit is wired quietly into the vehicle's electrical wiring loom, making it virtually difficult for thieves to find and eliminate.
- **Service/Valet Mode:** Allows the automobile to be serviced or parked by valets without compromising the secret PIN code.
