At its core, Big Bass Crash is a multiplayer social wagering video game developed on a "burst" or "crash" mechanic. Unlike basic slot video games where gamers spin reels and wait on matching symbols, crash games involve a gradually increasing multiplier.

In this specific title, players sign up with a cheerful angler on a boat as he casts his internet into the water. As the net decreases, a multiplier begins ticking upward from 1.00 x. The objective is basic yet painful: **cash out before the net breaks (or the fish leaves) and the multiplier crashes**. If a gamer fails to squander before the crash, their stake is lost.
