2. **Buying In:** Participants pay the comparable cost of the selected cases from their website balance.
3. **The Reveal:** Cases open round by round on screen. The system calculates the Steam Market or website value of every skin dropped.
4. **The Winner:** At the end of the fight, the gamer whose total dropped skin worth is the highest takes home **all** the skins visited every participant in the lobby.

- **Group/Team Battles:** Players split into groups (e.g., 2v2) and combine their overall skin worths against a rival group.
