1. **The Commission (Rake):** In peer-to-peer wagering, the platform takes a little portion (usually 2% to 5%) of the total pot.

Rather, they generally switch to the relocation that *would have beaten* what simply defeated them. For instance, if a gamer loses with Rock to Paper, they will likely throw Scissors in the next round.
- **The Winner's Stays:** Conversely, when players win a round, they tend to stick with the winning move.
- **The "Three-peat" Avoidance:** Humans dislike duplicating themselves. If a player tosses Rock twice in a row, they almost never toss it a 3rd time, making Rock an unlikely option for their 3rd turn.
