Home should be the one place where you do not have to think about ants in the sugar bowl or spiders in the shower. For thousands of Roanoke Valley families over the past five decades, Perdue Exterminators has been the company that keeps it that way. The family owned business focuses on residential pest control with a personal touch, summed up in its motto: large enough to serve you, but small enough to know you.

Residential service starts with understanding the house. Perdue's licensed exterminators look at the home's environment and construction to figure out why pests are showing up, not just where. A damp crawl space, a gutter dumping water at the foundation or a tree limb touching the roof can explain an ant or cricket problem better than any spray. Fixing the cause is how Perdue aims to stop pests at the source so they do not keep coming back.

General pest control covers the common invaders, while specialty services handle more serious problems. Termite elimination comes with renewable annual warranties. Bed bug work begins with a free inspection and consultation. Rodent control uses baits and traps that do not rely on toxic poisons. Cockroach, ant, spider, cricket and flying insect control round out the list, with insect identification for anything unusual.

Perdue Exterminators | 4323 Old Cave Spring Rd, Roanoke, VA 24018 | (540) 989-8188

Care Inside Your Home

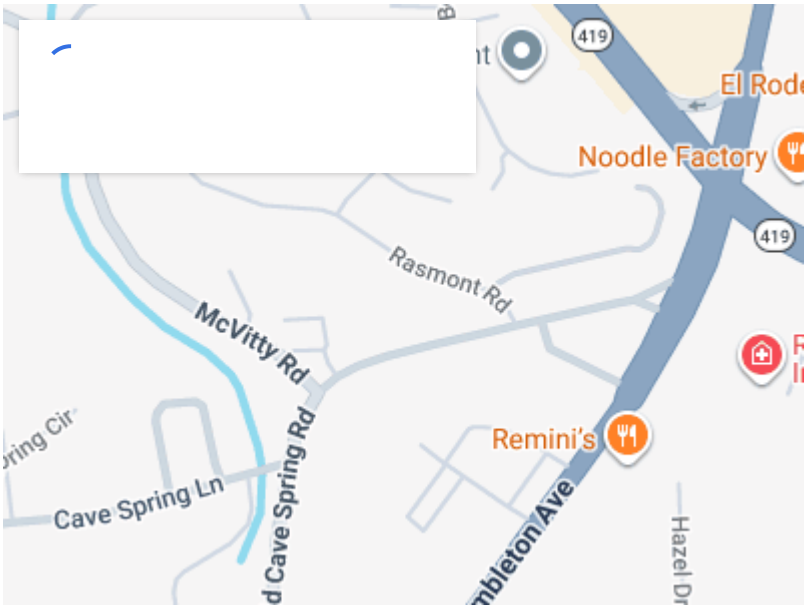

Families with young children and pets want to know that treatment is handled responsibly. One reviewer on the Perdue website wrote that the technician was extremely careful when spraying certain areas because the family has a two year old. Others describe friendly, professional technicians who explain the work and take extra care. That level of attention is a big reason customers return year after year.

Roanoke homes range from historic houses in Old Southwest to newer builds in Cave Spring and the hills around Salem. Each comes with **affordable pest control Roanoke** its own vulnerabilities, and a local team that has worked in all of them knows what to watch ***pest control company Roanoke*** for. Exterior perimeter treatment, sometimes called the yard power spray by customers, keeps many outdoor insects from reaching the living space.

Regular service also builds a history. When the same company returns each season, small changes like a new ant trail or fresh mud tubes get noticed quickly.

For residential pest control in Roanoke, Salem, Vinton or Smith Mountain Lake, call Perdue Exterminators at (540) 989-8188. The office is at 4323 Old Cave Spring Rd, Roanoke, VA 24018.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
