- **Red and Black:** Usually offer a 2x payout. If a gamer wagers on Red and the wheel lands on Red, they double their skin's value.
- **Green:** Acts as the "home edge" or prize sector. Because it lands much less often, it normally provides a greater payout, often 14x the initial wager.

The Standard Roulette Wheel Breakdown

Segment Color Possibility (Approximate) Payout Multiplier Function **Red** ~ 47.5% 2x Requirement high-frequency bet **Black** ~ 47.5% 2x Requirement high-frequency bet **Green** ~ 5.0% 14x House edge/ Jackpots

Note: Exact percentages differ somewhat depending upon the specific third-party platform, as operators change the odds to secure their revenue margin (the house edge).
