What does a 1930s semi on Cyncoed Road have in common with a post-war detached house a few streets from Roath Park Lake? Quite a lot, once you look up. Both are likely to have concrete interlocking tiles, a garage with a felt flat roof, and very often a conservatory added somewhere along the way. Redland Roofing Cardiff, a family-owned roofing contractor run by John Owen from Trecinon Road in Rumney, knows these houses well, and Cyncoed and Lakeside are only a short drive away through Penylan. Concrete tiles are tough, but they aren't forever. After decades of Cardiff weather, the mortar bedding the ridge tiles cracks and loosens, the undercloth or felt beneath the tiles can perish, and a single slipped tile can let rain onto the timbers below. Garage roofs are another common headache in Cyncoed and Lakeside. Old felt splits, blisters and sags, and water sits in the dips until it finds a way through. Redland Roofing Cardiff replaces tired flat roofs with an EPDM rubber membrane over new tongue-and-groove sterling board decking, and flat roof replacement is one of the jobs customers mention most in the firm's Google reviews. Conservatories bring their own problems. Many were added to 1930s and post-war homes around Lakeside and Cyncoed decades ago, and their roofs can leak at the joints, go brittle or simply make the room too cold in winter and too hot in summer. The team carries out conservatory roof replacement alongside all the usual work on these houses, including new ridge tiles, dry verge caps, vent covers, lead work where extensions meet the main wall, and new gutters, fascias and soffits. Street trees along Cyncoed Road and the parkland around the lake mean gutters here fill fast every autumn, so it's worth having them cleared and checked before the winter rain sets in.
