As the boat moves, the multiplier climbs up higher and higher. The goal is basic: **cash out before the line snaps or the boat crashes**. If gamers cash out in time, they win their stake multiplied by the present value. If they wait too long and the crash occurs, they lose their bet.

Big Bass Crash frequently includes a double betting user interface. This enables players to place 2 separate wagers on the precise same round. This setup opens varied methods, such as:
