2. The Paroli System (Reverse Martingale)

Instead of increasing bets after a loss, this system focuses on capitalizing on winning streaks.

- **How it works:** Players double their bet after a win, intending to ride a hot streak. If they lose, they return to the original base bet.
- **The Risk:** Failing to lock in revenues can lead to offering all jackpots-- and collected bets-- back to the home.

3. Flat Betting

- **How it works:** Waging the precise same quantity on each and every single flip, despite wins or losses.
- **The Benefit:** This is widely thought about the most safe and most sustainable way to enjoy coinflip games, as it avoids devastating losses and makes the most of playtime.
