What is Crazy Time?

Launched in June 2020, Crazy Time is a live online video game reveal developed around a huge, vibrantly colored, 52-segment mechanical wheel. Operated by a charming live presenter in a dynamic, studio setting, the game combines basic wagering mechanics with four distinct, extremely unpredictable bonus video games.

Unlike standard casino games where players play versus your home in a singular environment, Crazy Time cultivates a shared neighborhood experience. Thousands of gamers from around the globe can participate in the exact same video game round, chat with one another, and commemorate wins together in real-time.

The Core Wheel Segments

Before each spin, gamers put bets on where they think the wheel will stop. The wheel consists of numbers that pay out even cash or much better, along with sections that activate the perk rounds.

Wheel Segment Payout/ Action Likelihood (Approximate) **1** Pays 1 to 1 ~ 39.23% (21 segments) **2** Pays 2 to 1 ~ 25.00% (13 sections) **5** Pays 5 to 1 ~ 13.46% (7 sectors) **10** Pays 10 to 1 ~ 7.69% (4 sectors) **Coin Flip** Sets Off Bonus Round ~ 7.69% (4 sections) **Cash Hunt** Sets Off Bonus Round ~ 3.85% (2. sections) **Pachinko** Sets Off Bonus Round ~ 3.85% (2 sections) **Crazy Time** Activates Bonus Round ~ 1.92% (1 sector)

The Top Slot Feature

Including an extra layer of anticipation to every round is the **Top Slot**, a two-reel mini slots positioned directly above the main money wheel.

As the live host encourages players to position their bets, the Top Slot spins at the same time with the main wheel. It produces:

1. **A Bet Spot:** One of the wheel numbers or bonus video games.
2. **A Multiplier:** A multiplier value varying from 2x as much as 50x.

If the main wheel stops on the precise bet area that aligns with the Top Slot's choice, the multiplier is applied to that win. For basic numbers, the payout is multiplied. For perk rounds, the multipliers use to the initial values inside the perk video game, setting the phase for potentially enormous payouts.

The Four Immersive Bonus Rounds

The true heart and soul of Crazy Time are its four interactive bonus rounds. Whenever the wheel lands on a bonus section, all gamers who placed a bet on that specific section get to get involved.

1. Coin Flip

The simplest and most regular benefit round. The host steps up to a machine that turns a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are designated to each side of the coin.
- The coin is instantly flipped, and whichever side lands face-up identifies the winning multiplier for the getting involved players.

2. Cash Hunt

This changes the screen into a huge interactive shooting gallery including a screen with **108 random multipliers**.

- The multipliers are hidden behind various symbols (like a cactus, target, chef's hat, and so on) and after that shuffled.
- Gamers are provided a crosshair to goal and fire at a symbol of their option before the timer runs out.
- Once time ends, all symbols expose their hidden multipliers, and gamers get the multiplier representing the target they shot.

3. Pachinko

Motivated by the traditional Japanese arcade game, this reward round takes place in front of a large physical wall filled with physical pegs.

- At the bottom of the wall are numerous multiplier zones, alongside a special **" DOUBLE"** zone.
- The host drops a puck from the top of the wall. As the puck bounces randomly down through the pegs, it eventually lands in among the multiplier slots at the bottom.
- If the puck arrive at "DOUBLE," all multipliers on the board are doubled, and the host drops the puck again for an even bigger reward.

4. Crazy Time

The ultimate bonus offer *Crazy Time Demo* round takes gamers behind a red door into a lively, virtual, Alice-in-Wonderland-style world including an enormous 64-segment wheel.

- Gamers should choose among 3 flappers (Green, Blue, or Yellow) at the top of the wheel.
- The host presses a huge red button to spin the wheel.

- The wheel includes massive multipliers, "DOUBLE," and "TRIPLE" segments. If a flapper arrive at a double or triple, all multipliers on the wheel are multiplied appropriately, and the wheel spins again. This can repeat until a staggering **20,000 x max multiplier** is reached.

Techniques and Approaches for Players

Since Crazy Time is eventually a game of opportunity controlled by Random Number Generators (RNGs) and physical mechanics, no technique can ensure a win. Nevertheless, players normally approach the game utilizing a few *Crazy Time Free Play* unique styles:

- **The Low-Risk Approach:** Focusing greatly on the number sections (1 and 2) which make up the large bulk of the wheel. This approach prioritizes smaller, more regular payouts to extend gameplay time.
- **The Bonus Hunter Strategy:** Placing smaller sized wagers solely on the 4 reward rounds (Coin Flip, Cash Hunt, Pachinko, Crazy Time). This technique accepts frequent dry spells in exchange for the chance to get involved in the game's highest-paying rounds.
- **The Balanced Approach:** Spreading bets across both numbers and bonus rounds to ensure a mix of steady gameplay and access to high-value benefit functions.
