2. **A Weapon Case Key:** Purchased directly within the game client for a flat rate (typically around £ 2.50 GBP).

Once unlocked, the [Cs2skin CSGO Case Opening](#) case spins through a visual roulette before landing on a single product, which is then added straight to the player's inventory.

Types of CS2 Cases

Valve classifies cases in a few different ways, which straight affects their rarity and market price:

- **Rare (Discontinued) Pool Cases:** Older cases that no longer drop actively, making them scarcer with time.
- **Commemorative/Major Cases:** Souvenir packages dropped throughout main Counter-Strike Major competitions, which do not require a key to open.
